YEAR WARRANTY

Add privacy
and value to
your home

DESIGNED IN AUSTRALIA

Save on your energy bills with this easy to use external retractable system. Urban Track can be powder coated to any colour and is available in a choice of spring, crank or motor operation.

Create privacy, climate control (block wind, rain and sun), and add further living areas outdoors.

All metal components are aluminium or stainless steel that won't rust. Plastic components are fibreglass infused for greater strength and UV resistance.

Bottom rail is sturdy and can be weighted for larger blinds. Side rails hide and protect keder to prevent UV degradation in harsh sunlight.

ATMOSPHERE

Atmosphere external screen mesh is perfectly suited for use with Urban track, clear views out and privacy in.

Designed for optimal outdoor living and featuring superior visibility and exceptional glare, UV and heat reduction, the versatile Atmosphere range is available in 19 designer colours in two constructions, 1% + 5% openness.

Features and Benefits:

- Fire resistant
- Salt water resistant
- Mildew resistant
- Child safe - OKEO-Tex Standard 100
- Reduces heat and glare
- 2x2 weave for greater strength
- Contains no harmful substances
- Odourless
- Made exclusively from German yarn
- BASF - German dyeing material
- DUPONT - UV stabilisation
- 10 Year Warranty
